

A5 Leaflet Printing Instructions

Some of these pdfs are simply two page A5 spread to print on a single side of A5 paper.

Other pdfs are 4 page A5 to print double sided on A4 paper. The order looks a bit odd but if you print it correctly, it will form an A5 four page leaflet.

The four pages in the leaflets are arranged in this order. Four portrait A5 pages make two landscape A4 pages.

You need to print landscape Two-Sided on A4 paper making sure that the printing is the same way up.

It is easier if you have a Two-Sided printer - if you don't, put the paper through two times trying to get the printing on the right side and the printing right way up!

Printer settings:

A4 Paper
Landscape
100%
Centred
Two-Sided Short-edge binding

Folding

Fold so that pages 1 and 4 are on the outside.
You should finish with an A5 four page leaflet
